DETAILED ACTION

Status of Case

1. The enclosed supplemental allowance contains the correct claim numbering to include claim 42 that was inadvertently omitted in the previous notice of allowance as indicated.

Allowable Subject Matter

2. Claims 22 - 24, 26 - 31, 33, 34, 36 - 39 and 42 - 45 are allowed.

The following is an examiner's statement of reasons for allowance: The primary reasons for allowance is that the prior art including Bruce et al, Mansky et al, Yokoyama et al, Stanley et al and Ogawa do not anticipate or make obvious the provisions of "the material parameter is selected from the group consisting of electrical capacitance, specific heat capacity, peltier coefficient, magnetic susceptibility, ferroelectricity and pyroelectricity and comparing the plurality of measurements for a change in material parameter.." in combination with the other limitations presented in claim 22.
